

John Almodovar

Diamond Bar, California (Open to Remote) | +1 (661)-361-8936 | john.ag.almodovar@gmail.com

[LinkedIn](#) | [Github](#) | [Portfolio](#)

TECHNICAL SKILLS

Languages - Javascript, TypeScript, Python, SQL, PostgreSQL, GraphQL, HTML, CSS

Libraries - React, React Testing Library

Frameworks/Tools - Node, Express, Jest, Vite, Tailwind, Bootstrap, Flask, SQLAlchemy, unittest, VSCode, Git, Github

SOFTWARE ENGINEER EXPERIENCE

Software Engineer Intern

October 2023 – November 2023

Foqal

San Francisco, CA (remote)

- Overhauled Agent UI with React, TypeScript, and Bootstrap, leveraging Figma designs to elevate its visual design and relocate functionality from previous versions.
- Located and debugged known issues with the channel template component regarding its text box area, adding a side scroll feature to negate text overflow and reduce unforeseen behaviors.
- Engaged in Agile Development, collaborated with other engineers, participated in stand-ups and planning poker to allocate tickets between team members to successfully implement changes to the codebase.

TECHNICAL PROJECTS

ShareBnB - React, Node, Express, PostgreSQL, AWS

[Live Demo](#) | [Github](#)

- Implemented user authentication and authorization using JSON Web Tokens to guard specific API routes from anonymous users.
- Utilized AWS S3 to store user-uploaded images that allowed users to upload a picture to showcase outdoor space they listed.

Jobly - React, Node, Express, PostgreSQL

[Live Demo](#) | [Github](#)

- Leveraged REST API routes using Node and Express to query relationships between users and jobs to provide users a feed of jobs they applied for in their profile section.
- Designed search functionality, leveraging Node and Express to write REST API routes to query all related jobs or companies that closely match the user's input.

Warbler - Flask, PostgreSQL, SQLAlchemy, Jinja

[Live Demo](#) | [Github](#)

- Applied SQLAlchemy ORM to utilize object-oriented methods for users and messages, which allow users to fabricate and like posts, follow other users, and view their related posts.
- Engineered protection for sensitive user and database information against CSRF attacks by validation through CSRF tokens in WTForms.

EDUCATION

Rithm School

2023

Full Stack Web Development Bootcamp

San Francisco, CA

ADDITIONAL WORK EXPERIENCE

Back-End Supervisor

February 2020 – April 2023

Half & Half Tea Express

Rowland Heights, California

- Trained team members in successful strategies to meet procedural standards and achieve daily sales targets.
- Effectively allocated tasks during high-traffic hours to keep operations running smoothly and prevent a bottleneck on incoming orders.
